

Increase Your Productivity and Protect Against Lost Time.

According to the National Headache Foundation, American businesses lose an estimated \$50 billion every year due to headaches through absenteeism, diminished productivity and medical bills.¹

Keeping your employees safe, productive, and on the job will save you money.

Oral analgesics included in a first aid kit ***shall be packaged in a single dose, tamper evident, package*** with full labeling as required by the FDA regulations, and should contain no ingredients which are known to cause drowsiness.

– ANSI Z308.1-2003 5.2.1.1: Analgesic (Oral)²

Our tablets can help:

- Reduce absenteeism and lost production hours
- Prevent accidents caused by aches, pains and minor illnesses
- Reduce injuries caused by medicines that make workers drowsy
- Boost staff morale, alertness and positive attitude
- Sustain optimum employee productivity
